## 2024 ASD SCHOOLS SCREENING SCHEDULE

All screenings in the elementary schools will start at **9AM, (9:30 on Mondays)** unless another time is shown on schedule. Healthcare Services has asked the nurses to have all health screenings done before the end of the second quarter. We will do “pick-up” screening when needed (students missed at first screening at the school and new-to-district students)

The ASD guidelines for their health screenings for vision:

Photoscreening- PreK, K, 1<sup>st</sup> and 2<sup>nd</sup> grade and those 3<sup>rd</sup> graders that failed distance acuity

Distance Acuity- 3<sup>rd</sup>, 5<sup>th</sup>, 7<sup>th</sup>, 10<sup>th</sup> and New to District for all grades and 1<sup>st</sup> graders that failed

Photoscreening.

DA Criteria- For ages 3, 4, and 5: worse than 20/40 or a two line or greater difference between the eyes (even if in passing range) is a referral.  
For 6 years and older: worse than 20/30 or a two line or greater difference between the eyes (even if in passing range) is a referral.

Color Vision- To identify any deficiency in the ability to recognize color. One time new to screening for boys (girls optional) in pre-school, K, 1<sup>st</sup> grade or shades of district. Color deficiency is the inability to distinguish certain common. colors- red, green and yellow. Blue-yellow color deficiency is less green and It makes it difficult to distinguish between shades of blue and between yellow and red.

The nurse and principal at each individual school has the choice of following the district guidelines or having Our Vision Team do the screening for the entire school population. We find it's easier to identify problems or a change in the students' sight if a complete annual history is available.
